

**BDAC 1/29/98**

**Comments on Fishery Presentation**

1. What are the present losses of each specie in the Delta.
2. What is the percent survival of the San Joaquin species.
  - with the barriers in place.
  - various flows at Vernalis
  - different flows and pimping conditions in the Delta
3. Need to show what is accomplished with new screens at head end of Clifton Court Forebay.
4. Paper is written in negative tone. Should show the positive aspects what the fish facilities are accomplishing.

**Pete's Comments**

1. Need to get latest runs to show vectors. Eliminate all but the essential arrows.
